

## News for the Website

I recently took over management of [www.hammarathonclinic.org.nz](http://www.hammarathonclinic.org.nz), the Marathon Clinic's website. I've encountered a very steep learning curve, but have finally managed to be able to add some things to it.

All details of the Summer Series are there, with a link to the website where online entries can be made.

I edited *Jogging On*, the Club's newsletter, from 2003 to 2012 (53 issues). Included in these were many articles contributed by members, results of Club Championships, information about forth-coming events, etc, etc. Copies were printed, but in the last year or two the files were emailed to members, with some printed copies at the Clubrooms. I have a CD available with PDF files of all 53 issues.

*Jogging On* ceased at the end on 2012 when the then-President began weekly emailing to members, including some of the things previously in the newsletter. At the same time the website was set up, and edited for about 3 years by former member Ron Pedder.

The website includes a few articles selected from *Jogging On*, results of Club Championships, information about forthcoming events, news contributed by members, etc, etc. It's out of date in some things, but have a look.

In the first three years of the website there were numerous "News" items – 10 in the last 3 months of 2012, 15 in 2013, 9 in 2014 – but only a couple since then (the last was the 2015 Round Rarotonga). News items are on the website for only one year, but I have retrieved most and they are now included in three larger files (2012, 2013, and 2104-16) available in the "News" section.

**I need news items sent to me regularly for inclusion in the website.** Email these to me at [edentxyz@gmail.com](mailto:edentxyz@gmail.com) (.docx or .rtf format preferred; they can include a couple of photos). Copies of future news items which have been added to the website will be printed and available in the Clubrooms for those without email.

Many photos (over 1000!) have been included in the website. The "Photo Gallery" shows 45; click on these to see more photos relating to the events shown. Recently photos have been placed on the Club's FaceBook page, and I think that's where photos should continue to be placed:
